

PLUTON INVEST

COMPANY PROFILE

“Turning Africa's Challenges into Sustainable Solutions”

ABOUT US

At Pluton Invest, our mission is to be more than just an investment holding company. We aim to be a destiny-changing force that unlocks Africa's potential and drives sustainable development by making strategic investments across energy, oil and gas, technology, mining, agri-food, and engineering sectors.

In a region where trust is the currency of progress, our commitment to transparency and consistent results has earned us the confidence of communities, partners, and investors alike. This credibility is not merely a claim; it is proven through the tangible successes of our subsidiaries, which continue to deliver real-world impact across Africa.

Against a backdrop of uncertainty, Pluton Invest stands out as a dependable partner, delivering sustained results that endure the test of time. Our focus on reliability ensures that our projects don't just start strong - they continue to provide value, addressing the root causes of challenges with long-term solutions. This consistency is critical to maintaining the momentum necessary for true progress, and it solidifies our role as a trusted ally in Africa's development.

But reliability alone is not enough. It must be coupled with integrity, the guiding principle that informs every investment decision we make. At Pluton Invest, we hold ourselves to the highest ethical standards, ensuring that our actions align with our values. Integrity is woven into the fabric of our operations, from how we manage investments to how we engage with local communities. This commitment to ethical conduct fosters trust and ensures that our impact is not only positive but also respectful and fair.

It is this dedication to integrity that gives us the freedom to pioneer new ways to tackle Africa's most pressing challenges. We believe that solving problems requires more than just resources; it requires creativity, bold thinking, and a willingness to explore new solutions. Each of our subsidiaries reflects this innovative spirit, employing cutting-edge technologies and pioneering methods to break new ground in energy, agriculture, and infrastructure. By fostering a culture of innovation, we ensure that our solutions are not only effective today but also sustainable for the future.

At Pluton Invest, we also understand that the true measure of success lies in the longevity and resilience of our initiatives. We prioritise sustainable practices across all our ventures, ensuring that the benefits we create today will be enjoyed by future generations. Whether it's through renewable energy, advanced agricultural techniques, or enhanced infrastructure, our projects are designed to minimise environmental impact and promote social equity, helping to build a self-sufficient and thriving Africa.

Finally, all our efforts are anchored by robust governance, the framework that ensures Pluton Invest remains a responsible and effective leader in Africa's development. Our governance practices are aligned with international standards, providing the oversight, accountability, and transparency needed to navigate the complexities of the investment landscape. This strong governance structure not only mitigates risks but also reinforces the confidence of our stakeholders, securing Pluton's position as a credible and ethical force for change in Africa.

In essence, Pluton Invest is a catalyst for change across Africa. Based in the Republic of Chad, we are uniquely positioned at the crossroads of North and Central Africa, surrounded by nations that share our vision for a better future. Our mission is to identify critical issues that hinder progress in our region and establish innovative subsidiaries to tackle them head-on.

With a highly experienced investment board and leadership team, Pluton Invest combines deep local insight with global expertise. Our commitment goes beyond mere investment; we are dedicated to ensuring that each venture is sustainable, impactful, and aligned with the highest standards of governance.

“
Catalysts for
Sustainable Change”

MISSION

We will achieve our vision by creating, funding and nurturing innovative enterprises that address Africa's most pressing issues, driving social and economic progress with integrity and foresight.

VISION

To be the leading investment platform that empowers Africa to overcome its challenges and achieve sustainable growth.

OUR VALUES

CREDIBILITY

We build trust through transparency and consistent results.

RELIABILITY

Our solutions are viable and enduring.

INTEGRITY

We uphold the highest ethical standards in every aspect of our work.

INNOVATION

We pioneer new ways to address Africa's challenges and unlock its potential.

SUSTAINABILITY

Our projects are designed to create lasting benefits.

GOVERNANCE

We ensure that our operations meet global best practices.

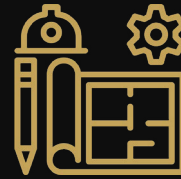

KEY SECTORS

ENERGY

Our energy initiatives are focused on progression to reliable, sustainable power sources. Our Green Energy Solutions subsidiary is a major thermal energy producer and leads the way in the transition to solar, wind, and biogas technologies, which will one day provide the clean energy that will power Africa's progress.

ENGINEERING

Through our Saphir Engineering subsidiary, we drive infrastructure development with innovative solutions that ensure efficiency, safety, and sustainability. Our projects are the backbone of Africa's evolving landscape.

AGRIBUSINESS

Our Africa Farming Industries subsidiary is transforming agriculture with cutting-edge techniques that address food scarcity and boost local economies. We are committed to ensuring that every community has access to the resources it needs to thrive.

OUR SUBSIDIARIES

The background of the slide is a cosmic scene. On the left, a large, textured planet with a reddish-brown hue is partially visible, showing a bright horizon line. In the center, a ringed planet, similar to Saturn, is shown from a distance. To the right, a crescent moon is visible against the dark sky. The foreground shows a curved horizon with a thin layer of atmosphere, suggesting the viewer is in space. The overall color palette is dark with warm, golden-brown and reddish tones from the planets.

SAPHIR ENGINEERING

ABOUT US

Saphir Engineering is an international multidisciplinary engineering consultancy firm with a strong presence across various sectors, including transport infrastructure, energy, oil and gas, water and sanitation, environment, mobility, and urban development.

Our services encompass project management assistance, project management, and operations management, ensuring that every phase of a project is executed efficiently and to the highest standards. We bring expertise in auditing and feasibility studies, helping clients assess and plan large-scale initiatives with confidence.

We are also skilled in crafting master plans and providing complete project management missions, which include everything from initial planning to final commissioning.

Beyond these core offerings, Saphir Engineering excels in project control, supervision, and management, ensuring that projects are completed on time, within budget, and in compliance with all regulatory requirements.

Our multidisciplinary approach allows us to deliver innovative solutions tailored to the specific needs of each sector, whether it's enhancing transportation networks, developing sustainable energy solutions, or improving urban infrastructure. Saphir Engineering's commitment to excellence and innovation positions us as a trusted partner for governments, corporations, and organisations seeking to drive progress across Africa.

SOLUTIONS**

GREEN ENERGY SOLUTIONS

ABOUT US

As a major thermal energy pioneer and a driving force behind the transition to renewable energy, Green Energy Solutions provides reliable, sustainable power across Africa. Our renewable energy innovations will eventually harness solar, biogas, and wind technologies to meet the continent's growing energy needs while reducing environmental impact.

With 20 MW currently under production in Chad alone - and several projects under development, we are at the forefront of Africa's transition to sustainable and environmentally friendly power sources.

Our projects not only deliver reliable electricity to communities but also play a vital role in the effort to reduce reliance on fossil fuels, mitigating climate change, and promoting sustainable development across the continent.

We believe that the key to a sustainable future lies in leveraging Africa's abundant natural resources to generate renewable energy. By focusing on the transition to clean energy production, we will help to build a resilient energy infrastructure that supports economic growth, improves quality of life, and protects the environment for future generations.

AFRICA FARMING INDUSTRIES

ABOUT US

Africa Farming Industries revolutionises agribusiness with innovative methods that tackle food insecurity head on. With a primary focus on the development of integrated agro-industrial parks, we develop sustainable farming practices that improve yields, ensure food security, and contribute to the economic vitality of rural communities.

Our ultimate vision is to play a key role in Africa's food security, ensuring that agricultural practices are not only sustainable but also yield high-quality produce.

Through our expertise and passion for agriculture, we aim to revolutionise the sector, bringing cutting-edge solutions to the challenges of food production and distribution.

Our integrated approach allows us to streamline processes from farm to market, reducing waste, increasing yields, and enhancing the livelihoods of farmers across the continent.

PEOPLE

SENIOR LEADERSHIP

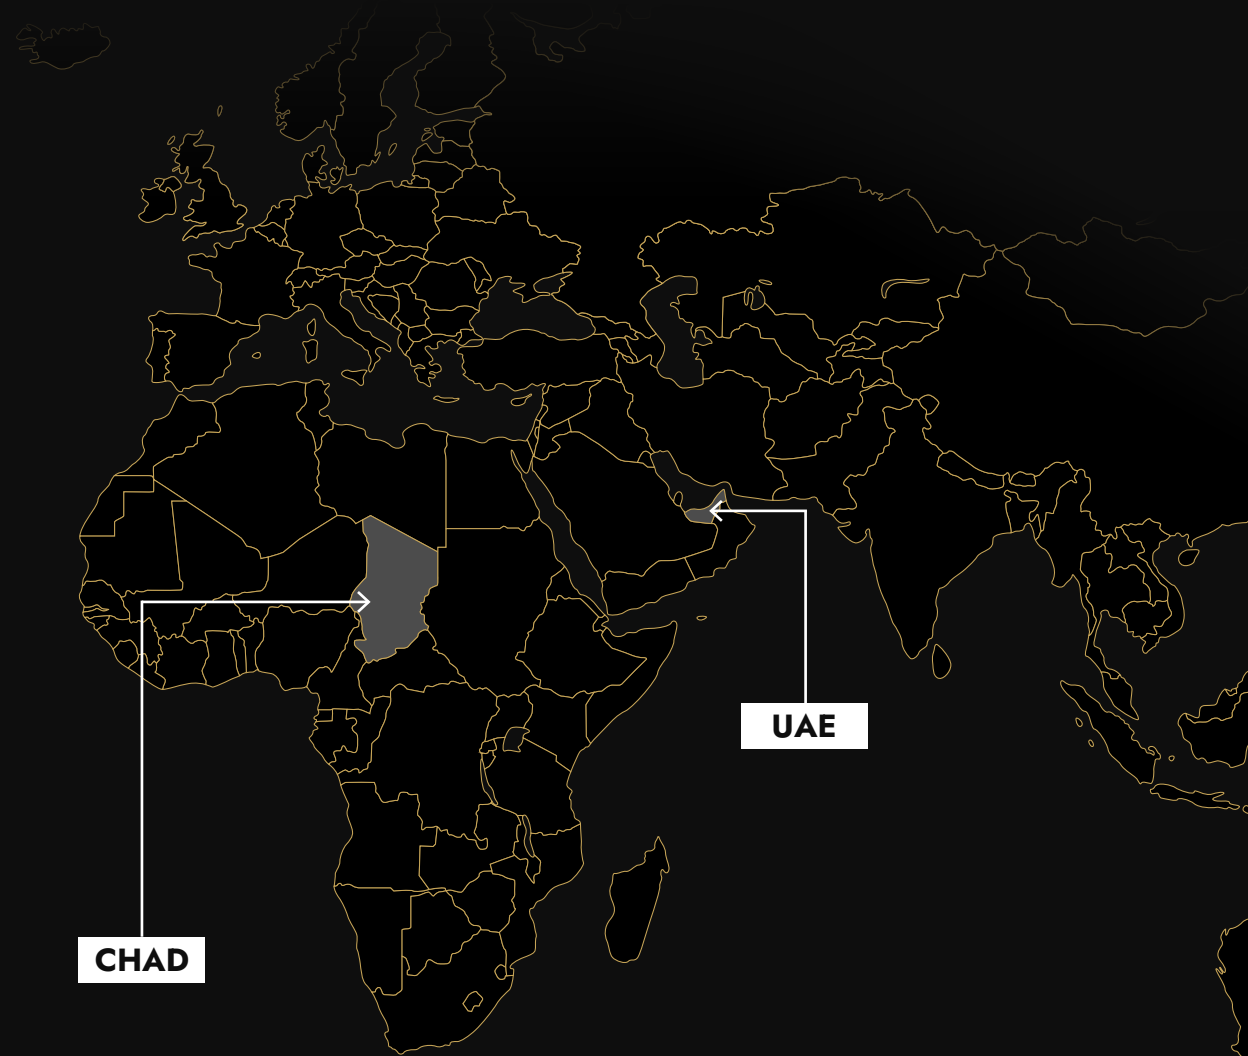

At Pluton Invest, we understand that our success is built on the expertise and vision of our leadership team. Our board and senior executives bring decades of experience in investment, engineering, energy, and agriculture, guiding our subsidiaries towards sustainable growth and impactful results.

OUR PRESENCE

Based in the Republic of Chad, we are strategically positioned at the crossroads of North and Central Africa, with an expanding presence in West and East Africa as well.

Our mission is to identify critical issues that hinder progress across the continent and establish innovative subsidiaries that tackle these challenges head-on, driving sustainable development and growth in every region we operate.
